

Sixteen of Cobb Community Transit's downtown routes will be rerouted beginning Monday, March 5. The affected CCT routes (a.m. and p.m.) serving downtown Atlanta are: 10A, 10B, 100, 101, 470, 47 Reverse Commute, 475 and 480. The revised permanent rerouting is necessary to avoid conflicts with construction of the Atlanta Streetcar Project. For the past several months, officials from CCT, GRTA, Gwinnett County and the City of Atlanta participated in meetings to implement the reroutes. CCT staff worked diligently to develop reroutes with bus stops that are accessible, convenient and mirror as closely as possible current downtown routing.
